

“We know the SECRET to long-lasting beautiful metal roofs with no worries”

COLOURCOIL® high performance pre-painted steel is the secret to long-lasting beautiful metal roofs.

By combining special high quality anti-staining and anti-fading paint formulations with the latest state-of-the-art infra-red curing technology, Colourcoil Industries can offer to the discerning client, world-class, colour-coated steel for the downstream manufacturing of high quality metal roofing and wall cladding.

COLOURCOIL® high performance pre-painted steel finishes are excellent and exhibit outstanding colour retention and long term durability properties. They are available in a wide range of exciting colours and come with true warranties of up to 20 years against colour fading, chalking and delamination with 25 years warranty against corrosion. By specifying metal roofs manufactured from Colourcoil high performance pre-painted steel, you are assured of a wise investment that will add value to your home.
